

1. How does your group sort the material to begin with?
2. What are some other ways the trash could possibly be sorted? By use, by material, by price, by category of product?
3. What room do you think the trash might have been from?
4. Do you think the trash came from a house or a public place?
5. Any other observations your group made about the trash?

Quick response questions:

1. What is CLAP?
2. What do archaeologists study?
3. What is culture?
4. What is linguistics?
